About

Self-taught UI/UX and product designer with 2 years across startups and enterprise AI, designing complex workflows, conversational AI and B2B tools. Works in Figma, Illustrator and After Effects, and comfortable across digital and physical products.

Education

Ahalia School of Engineering and Technology GPA: 7.0
B.Tech in Computer Science 2020 - 2024

Experience

Associate Software Engineer 07/2025 - Present
Relanto Global Private Limited | Bangalore, Karnataka Full-Time

- Designed SmartQuote, a conversational AI experience for enterprise quoting (CPQ) that replaces a multi-step process of forms, pricing, discounts, contracts and approvals with a natural-language flow ending in a reviewable quote.
- Created client and internal presentations, infographics and demo videos, including a confidential Google engagement, within strict brand and confidentiality guidelines.
- Designed AI-powered workflows for sales reps and managers (Sales AI) and clearer enterprise data workflows (DataSync, data masking).
- Designed SmartTracker, an internal project management tool, and MenuMind, a conversational AI concept for menu management. Explored RelPay, a biometric payment concept that replaces PINs and OTPs.

UI/UX Designer 07/2024 - 07/2025
Lazy Idli Pvt. Ltd. | Bangalore, Karnataka Full-Time

- PlayOS - Designed a B2C sports booking app and dashboard for PlayArena from scratch, creating wireframes, UI components, and seamless user experiences for both mobile and web platforms.
- CricketOS - Designed B2B tablet software for Straight Drive's automatic bowling machines, covering match setup, live score entry with machine controls (tilt, pan and speed), and a player leaderboard display screen.
- Redesigned the Project Teho website for its F1 racing simulator, converted F1 circuit maps into Illustrator vectors for wood-etching machines, and designed sticker graphics for a miniature F1 simulator.

UI/UX Associate Engineer 06/2024 - 07/2024
Codefast Technology | Remote Full-Time

- Designed a restaurant table-reservation app (logo, wireframes, customer and admin screens) and an e-learning platform for entrance-exam and 10th and 12th students.
- Designed multiple landing pages, posters, and logos, focusing on visually appealing and cohesive branding.

Skills

- **Design:** UI/UX, wireframing, prototyping, user flows, information architecture, design systems, user testing, front-end knowledge.
- **Tools:** Figma, Illustrator, After Effects, Canva.
